

a starving people life pdf

Starvation is a severe deficiency in caloric energy intake, below the level needed to maintain an organism's life. It is the most extreme form of malnutrition. In humans, prolonged starvation can cause permanent organ damage and eventually, death. The term inanition refers to the symptoms and effects of starvation. Starvation may also be used as a means of torture or execution.

Every day too many men and women across the globe struggle to feed their children a nutritious meal. In a world where we produce enough food to feed everyone, 821 million people “one in nine” still go to bed on an empty stomach each night. Even more “one in three” suffer from some form of malnutrition.

The mere addition paradox, also known as the repugnant conclusion, is a problem in ethics, identified by Derek Parfit and discussed in his book *Reasons and Persons* (1984). The paradox identifies the mutual incompatibility of four intuitively compelling assertions about the relative value of populations.
