A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.

Terminology. Investment differs from arbitrage, in which profit is generated without investing capital or bearing risk.. An investor may bear a risk of loss of some or all of their capital invested, whereas in saving the risk of loss in the value that is stated on a coin or note is normally remote.. Investment in stocks, property, etc. in the hope of significant gain but with the risk of ...
