BEGINNING BEEKEEPERS WORKSHOP - Scientific Beekeeping

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

Protoplast

Protoplast, from ancient Greek *πρωτοπλαστός* (*prōtoplastos*, "first-formed"), is a biological term proposed by Hanstein in 1880 to refer to the entire cell, excluding the cell wall, but currently has several definitions: . a plant, bacterial or fungal cell that had its cell wall completely or partially removed using either mechanical or enzymatic means.

Protoplast - Wikipedia

Christopher Osgood, Chair. The Department of Biological Sciences offers a broad selection of course offerings. The undergraduate curriculum is based on a two-semester foundations course and core courses that provide a well-rounded introduction to the major subdisciplines of biology.

The Scientific Revolution was a series of events that marked the emergence of modern science during the early modern period, when developments in mathematics, physics, astronomy, biology (including human anatomy) and chemistry transformed the views of society about nature. The Scientific Revolution took place in Europe towards the end of the Renaissance period and continued through the late ...

Scientific Revolution - Wikipedia

Summary. A little over 50 years ago, Sydney Brenner had the foresight to develop the nematode (round worm) *Caenorhabditis elegans* as a genetic model for understanding questions of developmental biology and neurobiology. Over time, research on *C. elegans* has expanded to explore a wealth of diverse areas in modern biology including studies of the basic functions and interactions of eukaryotic ...

A Transparent window into biology: A primer on

The use of thermodynamics in biology has a long history rich in confusion. " Harold J. Morowitz Sometimes people say that life violates the second law of thermodynamics.

The Second Law of Thermodynamics: Entropy and Evolution

1. Introduction. Autism spectrum disorder (ASD) is a group of neurodevelopmental conditions of unknown cause. It is highly likely that both genetic and environmental factors are associated with the onset and progress of ASD while the mechanisms underlying its aetiology are expected to be multifactorial , , . Human exposure to aluminium has been implicated in ASD with conclusions being ...
