

### **engineering metrology by m pdf**

Metrology is the science of measurement. Dimensional metrology is that branch of Metrology which deals with measurement of dimensions of a part or workpiece (lengths, angles, etc.) Dimensional measurements at the required level of accuracy are the essential link between the designer's intent and a delivered product.

### **Metrology - IITK**

metrology etc. Engineering metrology is restricted to the measurement of length, angles and other quantities which are expressed in linear or angular terms. For every kind of quantity measured, there must be a unit to measure it. ... Introduction Mechanical Measurement & Metrology (2141901) Department of Mechanical Engineering .

## **Engineering Metrology - IITK**

Limits and Fits - Definitions Zero Line: It is a line along which represents the basic size and zero (or initial point) for measurement of upper or lower deviations. Basic Size: It is the size with reference to which upper or lower limits of size are defined. Shaft and Hole: These terms are used to designate all the external and internal features of any shape and not necessarily cylindrical.
