A narrative or story is a report of connected events, real or imaginary, presented in a sequence of written or spoken words, or still or moving images, or both. The word derives from the Latin verb narrare, "to tell", which is derived from the adjective gnarus, "knowing" or "skilled".. Narrative can be organized in a number of thematic or formal categories: non-fiction (such as definitively ...

The study of consciousness requires a solution to the following fundamental problem: How can we measure consciousness? While there has been substantial progress in measuring the level of awareness, and researchers have made steady progress delineating the neural correlates of consciousness, it remains impossible to measure the contents of awareness directly and link a personâ€™s subjective ...
