Performance measurement - Wikipedia

Management of business processes is a comprehensive approach to implementation of the objectives of an organisation. It concentrates on optimising the ways business processes are run in organisations in order to increase effectiveness of operations within an organisation.

Identification of Business Processes in an Enterprise

Information systems (IS) are strategic in so far as they are used to realize strategic intent. Yet, while much has been said about aligning IS functionality with the strategic intent and how to organizationally implement strategically aligned systems, less is known of how to successfully implement strategic change associated with system use — a truly critical challenge within strategic IS ...

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
